SOP-QC-001: Precision Shaft Turning Quality Protocol
1. Scope: Precision Shaft PS-2026-101 manufacturing on CNC-04.
2. Target Diameter: 50.00 mm (+/- 0.05 mm tolerance).
3. Inspection Frequency: 100% startup verification and 5 consecutive parts per production hour.
4. Corrective Action: If diameter exceeds 50.05 mm USL, quarantine batch and replace worn carbide insert imme
